

# PRODUCTION STEPS

Curious about what to expect throughout the production process?

## Submit Artwork & Order Details for Quote

Customer provides:

- Final artwork (*vector preferred: AI, EPS, SVG, or high-res PNG*)
- Garment type(s), brand, colors, sizes, quantities
- Print locations (*front, back, sleeve, etc.*)
- Special requests (*metallic ink, soft-hand, folding/bagging etc.*)
- Number of ink colors per location
- Turnaround deadline and shipping details

Shop evaluates:

- Total print count and complexity
- Ink colors and screen count
- Garment sourcing costs, if applicable

Customer receives:

- Itemized quote (*printing, garments, shipping*)
- Estimated production timeline

## Artwork Review & Prepress Preparation

File Check & Cleanup

- Ensure artwork is print-ready by using vector files or converting all fonts to outline
- Verify design integrity by checking line weights, fine details, and overall print viability for screen printing

Mockups & Proofing

- Create digital mockups showing placement and scale
- Provide proof to customer for approval

Approval Gate

- Customer signs off on final proof
- Any changes after this point may incur additional fees

## Production Begins Upon Approval

Screen Preparation

- Coat, expose, and wash screens to create stencils; dry, inspect for defects, and prep for printing

Press Setup

- Load garments, align and register screens, and set press parameters

Ink Mixing

- Mix and adjust inks to required colors and consistency; test on sample fabric

Test Prints

- Run samples to verify color, registration, and coverage; make adjustments before production

Full Production Run

- Print garments in batches with proper curing between colors while monitoring quality and consistency

## Final Quality Check & Blind Shipment

Quality Control (QC)

- Inspect for curing, registration, ink consistency, placement, and garment defects

Finishing

- Fold, sort, count, and apply tagging or bagging as required

Packaging/Shipping

- Pack and label orders
- Blind Shipping (if applicable)
- Generate tracking, notify customer, and confirm delivery timelines
